## CIRCUIT TRACK KIT - ORDER # 118-1995

It's now easier than ever to repair damaged circuits. Circuit Tracks are rectangular shaped conductors made of 99.9% pure CDA 11000 copper.

These rectangular ribbons closely conform to the original conductor dimensions. The replacement Circuit Track is bonded in place using prepackaged epoxy included in the kit.

This kit is a great time and labor-saver and an easy solution to repairing missing or damaged conductor traces and circuits.

### Features

- Everything you need to repair damaged circuits and conductors.
- Circuit Tracks can form to any conductor pattern.
- Designed to meet IPC recommended guidelines.
- 19 separate items, more than 50 pieces.
- Packaged in a rugged, ESD safe conductive case.

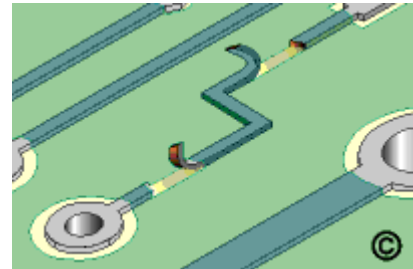

Everything you need to repair damaged circuits and conductors. 19 separate items, more than 50 pieces.

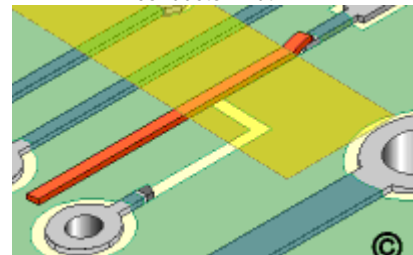

The Circuit Track Kit is packaged in a rugged, ESD safe conductive case.

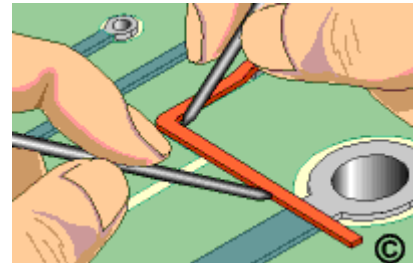

Circuit Tracks are rectangular shaped pure copper ribbons that can form to any conductor pattern.

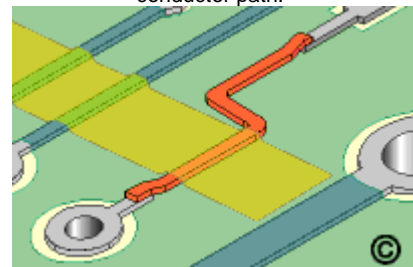

Evaluate the damage and measure the conductor width

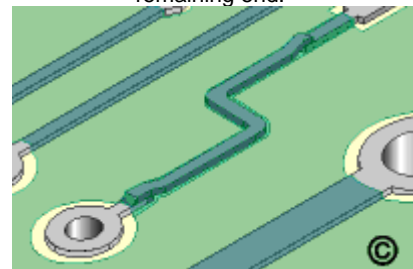

Remove the damage, place the new Track and solder one end.

Form the Circuit Track to match the original conductor path.

Make any final bends and solder the remaining end.

Bond in place and overcoat with epoxy.

## Circuit Track Kit Includes

Qty	Image	Order No.	Item
1		118-1889A	<b>Abrader</b> Mild abrasive for removing oxides and contaminates from conductive surfaces.
5		119-2009A	<b>Alcohol Swab</b> Self-saturating Isopropyl alcohol swab. Squeeze handle to release alcohol.
4		118-1894	<b>Circuit Bond Packs</b> Clear, superior strength epoxy in two-compartment plastic packages
1		118-1934	<b>Circuit Track, .002\" x .005\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
1		118-1936	<b>Circuit Track, .002\" x .008\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
1		118-1937	<b>Circuit Track, .002\" x .010\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
1		118-1939	<b>Circuit Track, .003\" x .015\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
1		118-1940	<b>Circuit Track, .005\" x .020\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
1		118-1941	<b>Circuit Track, .005\" x .030\"</b> Rectangular shaped pure copper wire used to repair damaged conductors.
5		118-2010A	<b>Cleaning Brushes</b> Disposable brushes for use with solvents for cleaning and application of coatings

Qty	Image	Order No.	Item
5		118-2010	<b>Foam Swab</b> Ideal for absorbing cleaning solvents, and applying color agents and epoxies.
1		118-2010D	<b>High Temp Tape Discs</b> High temperature polyimide tape discs, .50\" diameter.
1		118-2028	<b>Knife with #16 Blades</b> A must-have tool for precise cutting, scraping and trimming.
1		118-1881A	<b>Measuring Microscope Pen, 25X</b> Pocket pen microscope with measuring reticle.
5		118-2028A	<b>Micro Probes</b> Use to dispense a minute amount of adhesive and for micro-positioning of small objects.
5		118-1897A	<b>Mixing Picks</b> Unique mixing sticks have a paddle shape on one and sharp pick on the opposite end.
5		118-1896	<b>Plastic Cup</b> Small disposable cup for mixing epoxies and holding small items.
1		118-2024B	<b>Tweezer, Crossover</b> Self locking stainless steel tweezers provide hands-free clamping force.
1		118-2024A	<b>Tweezer, Point Tip</b> Fine point tweezers for precision work.
